Capacities of these numerous truck designs range from 3,000 to 33,000 lbs. All trucks are built in an ISO 9001 certified facility.

Doosan Infracore America is the fastest growing lift truck business in the North American market, thanks to their stability in retaining a high level of client service excellence and optimum product functioning to all Doosan Infracore Lift Truck users. The U.S. forklift division located in Cleveland has a expert team experienced in Sales, Purchasing, Advertising, Logistical and Technical Support.

Korea's original domestic forklift marketplace was an open-import enterprise. In the 1960's, Korea Machinery Co. Ltd. started to import assembled lift trucks as part of a national equipment expansion venture. Initial product sales of this industrial equipment focused on large business groups, the armed services and on state-run firms. This eventually led to a unification with Daewoo Heavy Industries Ltd. In 1976, the Forklift Division begun trade operations throughout Korea to overhaul and sell this heavy equipment. By 1978, a forklift production plant was successfully completed. Continuous technical training became the new focus for enhancing quality and product development.

Home-based lift truck business for Daewoo started in 1967 and grew to an astounding 90% market share in Korea. By the 1980's, Daewoo's advanced technological advancements combined with sales success placed them in a position of significant growth of their forklift business.

In 1981, Caterpillar Industrial Inc. of the United States, proposed a cooperative enterprise project to counter act competitive pressures in the US materials handling market. This plan greatly expanded Daewoo's lift truck sales. Construction was finished in 1984 to facilitate a contemporary plant which helped set up the business for the manufacture of high end added-value products suitable for export. In 1993, the company had a global sales network and started exporting models they had established through in-house expertise, as an sovereign product. Certifications were then acquired from CE of Europe, UL of the United States and ISO 14001 and ISO 9001, securing growth opportunities into overseas marketplaces.
